Specifications

Parameter	Value/Data
Input voltage	100-240 Volt, 50-60Hz, max 2.2A
Mode of operation	TriLipo®
Maximum output power RF	50 Watts
Output frequency RF	1MHz
Output power control RF	Pulse width modulation (PWM)
TriLipo® pulse duration	20-400 µs
TriLipo® pulse frequency	0.78,1.56, 3.12, 6.25; 12.5; (Hz)
TriLipo® pulse amplitude*	0 – 300 mA
Programs	RF;TLP;PULSE
Weight	~22 Kgs
Dimensions	L57xW49xH127 cm (with Applicators Holders assembled)

About Lumenis

Lumenis is a global leader in the field of minimally-invasive clinical solutions for the Surgical, Ophthalmology and Aesthetic markets, and is a world-renowned expert in developing and commercializing innovative energy-based technologies, including Laser, Intense Pulsed Light (IPL) and Radio-Frequency (RF). For nearly 50 years, Lumenis' ground-breaking products have redefined medical treatments and have set numerous technological and clinical gold-standards. Lumenis has successfully created solutions for previously untreatable conditions, as well as designed advanced technologies that have revolutionized existing treatment methods in each and every one of the verticals we operate in. Our drive for innovation stems from an uncompromising commitment to improving the health and well-being of our patients; addressing new and growing needs of aging populations; and in offering medical professionals cutting-edge solutions that fit seamlessly into the health-economics environment of the 21st century. The world over, we bring Energy to Healthcare.

About Pollogen

Pollogen Ltd. is a global leader in the medical aesthetics market providing innovative, safe, and effective solutions for women and men that enhance and expand the practice of medical aesthetics professionals. The company offers products to address a range of skin treatments under the industry's six premier brands: TriPollar®, TriLipo®, TriFractional™, OxyGeneo®, Hybrid Energy™, and VoluDerm™.

Pollogen offers a full line of clinically-proven, non-invasive anti-aging facial and body contouring treatment platforms for circumference reduction, cellulite reduction and skin tightening. The company's aesthetic devices: Pollogen LEGEND, geneO+, Maximus, Apollo, and Surgen offer customers clinically proven, safe and effective anti-aging lunchtime beauty treatments that deliver immediate and long-lasting results. With a distribution network in over 60 countries, Pollogen is providing innovative solutions to medical professionals globally.

Shaping, Tightening & Facial Rejuvenation

TriLipo® RF energy + Dynamic Muscle Activation (DMA)

Three or more electrodes deliver focused RF current combined simultaneously with muscle activation.

The RF energy generates heat through resistance in both the dermal and subcutaneous layers. Selective and focused electro-heating of superficial and deep layers of the skin and sub-dermal fat tissue. is intended to stimulate collagen remodeling and increase fat metabolism.

Dynamic muscle activation stimulates blood circulation and enhances lymphatic drainage resulting in effective oxygenation and removal of metabolic waste by-products. Internal and external pressure stimulate the release of fat from the adipose cells, decreasing their size for circumference reduction, improved skin firmness and improved body contouring.

Results are immediate as contracting collagen fibers create a wrinkle reduction & skin tightening effect. Long term effects are caused by the increased fibroblast activity which causes collagen regeneration.

"I find Pollogen's TriLipo non-invasive body shaping systems effective for circumference reduction, removing localized fat deposits and reducing cellulite. My patients are very pleased with the immediate and long-lasting results and are grateful that the treatments are so quick and pleasant."

Michele Pelletier, M.D., Toulon, France
