Specifications

Parameter	Value/Data
Power Output	Vibration frequency: 5-30 Hz
Input voltage and current	100-240 Volt, 50-60 Hz, 600mA
Input power rating	12VDC, 2.0A
User interface	LCD color touch screen
Dimensions	H380 x W382 x D282 cm; H14.9 x W15.0 x D11.1 in.
Weight	~4.4 Kg; ~9.7 Lb

About Lumenis

Lumenis is a global leader in the field of minimally-invasive clinical solutions for the Surgical, Ophthalmology and Aesthetic markets, and is a world-renowned expert in developing and commercializing innovative energy-based technologies, including Laser, Intense Pulsed Light (IPL) and Radio-Frequency (RF). For nearly 50 years, Lumenis' ground-breaking products have redefined medical treatments and have set numerous technological and clinical gold-standards. Lumenis has successfully created solutions for previously untreatable conditions, as well as designed advanced technologies that have revolutionized existing treatment methods in each and every one of the verticals we operate in. Our drive for innovation stems from an uncompromising commitment to improving the health and well-being of our patients; addressing new and growing needs of aging populations; and in offering medical professionals cutting-edge solutions that fit seamlessly into the health-economics environment of the 21st century. The world over, we bring Energy to Healthcare.

About Pollogen

Pollogen Ltd. is a global leader in the medical aesthetics market providing innovative, safe, and effective solutions for women and men that enhance and expand the practice of medical aesthetics professionals. The company offers products to address a range of skin treatments under the industry's six premier brands: TriPollar®, TriLipo®, TriFractional™, OxyGeneo®, Hybrid Energy™, and VoluDerm™.

Pollogen offers a full line of clinically-proven, non-invasive anti-aging facial and body contouring treatment platforms for circumference reduction, cellulite reduction and skin tightening. The company's aesthetic devices: Pollogen LEGEND, geneO+, Maximus, Apollo, and Surgen offer customers clinically proven, safe and effective anti-aging lunchtime beauty treatments that deliver immediate and long-lasting results. With a distribution network in over 60 countries, Pollogen is providing innovative solutions to medical professionals globally.

SUPER FACIAL
PLATFORM

3-in-1 Super Facial

VISIBLE Immediate Results

The geneO+ is a new platform that redefines facial treatments with the combined innovative OxyGeneo, TriPollar and Ultrasound technologies. One platform now delivers 3 procedures in 1 treatment for a 3-in-1 Super Facial:

Exfoliation | Infusion | Oxygenation.

OxyGeneo™

- Improves skin tone & texture
- Oxygenation generation from within
- Visible results from the first treatment
- Prepares the skin for optimal absorption of revitalizing nutrients

Exfoliate: the Capsugen tablet exfoliates the upper skin layer to remove dead cells, smooth and renew the skin.

Infuse: capsugen action cleanses the skin preparing it to receive active nutrients.

Oxygenate: OxyGeneo® produces CO₂ bubbles which gently burst on the skin surface sending O₂-rich blood to the area. This increases capillary flow and skin metabolism.

TriPollar® RF energy

- Wrinkle reduction
- Firmed and rejuvenated skin
- Facial contouring

RF energy generates heat through rapidly oscillating electromagnetic fields.

Focused electro-heating stimulates collagen production and remodeling.

Ultrasound™

- Gently warms the skin tissue for better cellular metabolism
- Improves moisture retention
- Relieves puffiness around the eyes
- Safe for all skin types

Ultrasound waves penetrate below the surface of the skin. The vibrations increase the permeability of the stratum corneum preparing the skin for increased penetration of active nutrients.

"OxyGeneo delivers excellent facial skin exfoliation and also provides the unique benefits of natural skin oxygenation and nutrient infusion."

Dr. Ghislaine Beilin, Paris, France

"We couldn't be happier with this gentle and effective treatment. Our patients are extremely satisfied with their results; even after their first treatment they already notice smoother skin and an improved healthier complexion. It is great for all skin types. It will work great on acne, skin pigment changes, large pores and wrinkles."

Dr. Carlos Ayala owner of Ayala Plastic Surgery Institute, Texas USA.
